Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

1. This communication is responsive to the Amendment filed June 9, 2005.
2. Claims 1-57 are pending in this application. Claims 1, 30, 47 and 54 are independent claims.

Election/Restriction

3. Upon review of the amended claims in the instant Amendment, it is noted that there was an oversight on the Examiner's part regarding the omission of examining claims 48-57 in the last office action. It appears that Applicant did not point out this mistake in the instant Amendment. However, a close re-examination of all claims reveals that claims 48-57 appear to signify a clear distinction of subject matters and therefore require a different search. In accordance with this a restriction is deemed proper.

4. Restriction to one of the following inventions is required under 35 U.S.C. 121:

Group I. Claims 1-47, drawn to a method for subject matter wherein a user has access to and control, via a Graphical User Interface, of data processing systems or components at a location removed from the user., classified in Class 715, subclass 740.

Group II. Claims 48-57, drawn to two-way video and voice communication, classified in Class 348, subclass 14.01.

Art Unit: 2174

5. The inventions are distinct, each from the other because of the following reasons:

Inventions Groups I and II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, while invention I has separate utility such as providing a method for providing GUI menu's for controlling conference room devices remotely, invention II is directed to a system for accessing and transmitting commands, status as well as scheduling request information. See MPEP § 806.05(d).

6. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification and divergent subject matter, and because the searches for the individual Groups are not coextensive, restriction for examination purposes as indicated is proper.

7. Applicant is advised that the response to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed.

8. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 C.F.R. § 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a diligently-filed petition under 37 C.F.R. § 1.48(b) and by the fee required under 37 C.F.R. § 1.17(h).
